Coronavirus (COVID-19) and its unprecedented global impact has raised many questions and concerns regarding event safety and restrictions. First and foremost the safety of our audience and staff is of utmost priority. Therefore, we want to reiterate that CXOsynchronization events are an intimate invitation-only one-day event that houses a limited number of 'local' senior executives. Our limited audience size gathering will help mitigate much of the worry amongst both attendees & sponsors. CXOsynchronization will adhere to the latest health and safety regulations, guidelines, and recommendations, as directed by the Center for Disease Control and Prevention, World Health Organization, and State & local government.

**CXOsynchronization will have the following preventative measures set in place:**

1. All attendees and sponsor representatives will be asked to provide a copy of their vaccination card or provide a copy of their latest negative result from COVID-19 test upon arrival
2. Pre-screening of all attendees to eliminate at-risk attendees in advance based on symptoms, recent travel to at-risk regions, or contact with others that may have traveled to those regions.
3. Hand sanitizer stations throughout event spaces.
4. Frequent wipe downs of all common touch areas and surfaces including doorknobs, lecterns, microphones, escalator handrails, trash receptacles, elevator buttons, water stations, registration tables, and in and around the bathroom areas.
5. Disinfecting registration counters and floors continuously throughout the day

**By choosing to attend a CXOsynchronization event, you agree to follow all stated rules and accept those risks.**

1. You will not attend a CXOsynchronization event while experiencing any COVID symptoms. The current list of symptoms as defined by the [CDC](https://www.cdc.gov) are:
   a. Fever or chills
   b. Cough
   c. Shortness of breath or difficulty breathing
   d. Fatigue
   e. Muscle or body aches
   f. Headache
g. New loss of taste or smell
h. Sore throat
i. Congestion or runny nose
j. Nausea or vomiting
k. Diarrhea

2. Based on local government regulation, facemasks will be required at all times, except while eating and drinking. Speakers may remove masks while presenting.

3. Wash hands with soap frequently

We will continue to monitor and access current conditions and regulations to ensure we are providing up-to-date precautionary measures for the safety of our audience and staff. For more information and/or updates on COVID-19, please visit:

1. Centers of Disease Control and Prevention (CDC)
2. World Health Organization (WHO)
